OUR COMPANY

- ABOUT US
- OUR AIM
- BUILDING VALUE
- OUR STRENGTHS

Perpetually inspired by the principles of sustainable development, the company leverages technological and organisational innovation and harnesses the power of its extraordinary human and professional resources.

I. ABOUT US

Buzovama Engineering Services is a South African Company, founded 10 October 2012. The company is a national player within the infrastructure services in urban and rural areas. With a combined professional experience of over 50 years of registered engineering practitioners within the firm, our *We Build Value* slogan speaks volume.

II. OUR AIM: TO BUILD VALUE

We are committed to operating our business in a manner that is both sensitive and responsible, with proper regard to our legal obligations and according to relevant directives, regulations and codes of practice. We are also committed to supporting the Government's vision for Corporate Social Responsibility in terms of business, taking into account of the economic, social and environmental impacts, specifically:

- Promoting business activity that brings simultaneous economic, social and environmental benefits.
- Encouraging innovative approaches and application of best practices.
- Ensuring best minimum levels of performance are greatly exceeded in areas such as health & safety, the environment and equal opportunities.
- Creating a framework that facilitates business practices that balance profit and success with achievement of social and sustainable goals.
- Taking an active part in supporting local community and social causes.
- Creating real opportunities for local people and enterprise development.
- Providing a rewarding, challenging and great place to work.

TO BUILD VALUE

OUR UNIQUE VALUE PROPOSITION

A player in the Engineering sector focused on complex projects.

Outstanding skills in key competitive segments.

SIGNIFICANT GEOGRAPHICAL DIVERSIFICATION

The company's size enables it to compete for the medium–large projects nationally.

Significant geographical diversification, well distributed across different provinces and at different stages of development.

Ability to penetrate new markets.

III. OUR BUSINESS AREAS

A role player in the engineering sector, focused on critical complex engineering projects, with key focus to: **Engineering Field Studies, Engineering Designs, Project Management, Construction Management, Turn-key Solutions.**

SERVICES

TIMELINE

We believe that our future depends on the perfect balance between achieving our Group's growth targets and the contribution that we can make to the socio-economic and environmental development of the communities in which we operate. To reach this goal, we apply the principles of sustainable development in our everyday work, making it a key part of our positioning on the global market.

Our projects lead us to work all over the world, to meet different cultures and come face to face with different needs. We aim to meet the expectations of everyone we deal with: governments and authorities in host countries, local communities, clients and partners, shareholders and employees. All of whom have their own histories and cultures, with their own values and needs.

Creating shared value for all our stakeholders is our greatest challenge – one that we pursue every day by fostering the growth and integrity of our employees, ensuring the satisfaction of our shareholders, aiming to deliver excellence for our customers, caring for local communities and looking after the environment.

SUSTAINABILITY

Our Sustainability Policy is a formal declaration of our commitment to all our stakeholders. It aims to provide a solid grounding for the day-to-day actions of our people, in line with our core values.

Our team of professionals are well experienced and registered with all relevant professional bodies of South Africa - ECSA, SACPCMP, SAICE, just to name a few.

Through our Sustainability Report, we commit to publishing a full and transparent annual assessment of our business. environmental and governance issues.

QUALITY, ENVIRONMENT & SAFETY POLICY

Throughout the country, wherever we work, we follow the principles of quality, safety and respect for the environment. In every province where we operate, we have always aimed to produce high-quality long-lasting work, to protect local communities, and to ensure the safety of all our staff.
